II. **Introductions and Purpose of Session** – Kerry Morrison,  
Executive Director Hollywood Property Owners Alliance

### **Purpose of the Session**

Business improvement district response to issues related to homelessness is rapidly evolving. Where response has been guided by public safety goals, BID's increasingly find themselves balancing community quality of life needs of residents, businesses, visitors, as well as homeless individuals. This session is to provide information and context on the issue to reframe and to better equip BIDs as to where we can play a constructive role in advocating for public policy, regulatory or systemic changes at the state and local level. The ultimate goals are to more effectively improve quality of life for *all* in BID areas, and to support the national vision to end homelessness.
